# How will your recycling be collected?

We will collect your recycling in sacks outside your premises. We will send you a reminder when we are on our way, so you know when to put it out.

We can also collect from wheeled bins, loading bays and from inside your office.

# What can you recycle?

## Paper Recycling

Separating your paper from your other waste materials makes it easier to recycle which is better for the environment.

Also for every paper sack collected, we donate 2p to Rainforest Concern, who campaign against the destruction of the world's rainforests.

## Mixed Recycling

This is our easy recycling sack for all your other recyclables such as plastic bottles, food tins, drinks cans and plastic packaging (no glass).

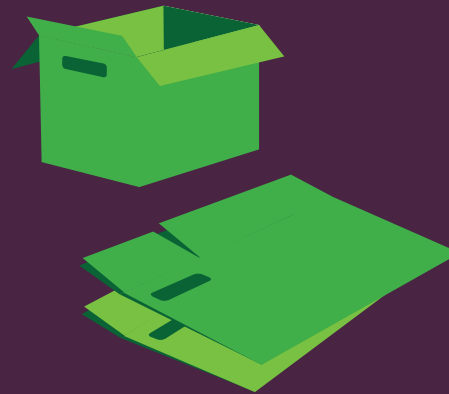

Paper can go into this bag too if you aren't using our separate 'paper only' bag.

## Cardboard

Bundle your flattened cardboard boxes and wrap some of our recycling tape around them.

We'll collect it along with your other recycling and ensure it is recycled back into fresh new cardboard boxes.

## Glass Recycling

We collect glass in sacks or wheeled bins depending on how much you generate and recycle it back into new jars and bottles.

**Paper Round does offer a complete waste service including rubbish and secure shredding, so if there is anything else you need collecting just give them a call to benefit from the Victoria BID's discounted rates.**
